Enterprise AI Transformation

Solving RAISE: Rapid AI Increases Skills Expectations

Where traditional engineering meets Vibe Programming

The Challenge

RAISE is Happening Now

- AI is evolving faster than your team can adapt
- Skills gaps are widening daily
- Developers and non-developers speak different languages
- Traditional training can't keep pace

The Result?

Lost productivity, missed opportunities, and competitive disadvantage

Our Solution

A Continuous Transformation Cycle

Three interconnected stages that create always-learning organizations:

1.  **Assessment** - Know where you stand
2.  **Training** - Bridge the knowledge gap
3.  **Implementation** - Unite your teams

From I-shaped specialists to X-shaped innovators

Stage 1: Assessment

Quarterly 1-1 Private Meetings

What We Do:

-  **Strictly confidential** individual sessions
-  **Developers:** Git repository analysis (public or private)
-  **Non-Developers:** Prompt and workflow review
-  **Outcome:** Unique maturity assessment + tailored roadmap

Everyone gets a personalized path forward

Stage 2: Training

Top 10 AI Courses - One-to-Many Format

Getting everyone on the same wavelength through:

- ✨ Vibe Programming fundamentals
- 🤖 RAG & Xai Frameworks
- 🧠 Model Training & Security
- 🔁 Hybrid AI Modeling
- And 6 more cutting-edge topics

Knowledge download for the AI era

The Complete Curriculum

Master the Tools of the Trade

Course	Focus Areas
Vibe Programming	Non-deterministic development
Explainable AI (XAI)	IBM AI 360, deeplearning.ai

Plus: Vector Databases, RAG, Fine-Tuning, Cybersecurity, Ethics & GDPR

Stage 3: Implementation

Where the Magic Happens

Merging Two Worlds:

-  **Creativity at the core** - Essential for demanding requirements
-  **Skills Evolution** - I-shaped → M-shaped → X-shaped
-  **Enterprise Collaboration** - Developers + Non-developers united

Bridging deterministic and non-deterministic programming

Our Workshops

Where Vibe Programming Meets Agentic Frameworks

Dimension	Focus	Action
 Real	OKRs & Goals	Aim > Goals
 Journey	Visual Storytelling	Feel > Experience
 Environments	Roadmaps & Use Cases	Create > Runtimes
 ...	...	...

Support Plans

Prosumer - Individual Assessment

\$50/session

-  Individual AI maturity assessment
-  Personalized skills gap analysis
-  Custom AI learning roadmap
-  Written assessment report (60 min)

Support Plans

Starter - Remote Daily Sessions

£500/consultant/day

-  Remote live training sessions
-  Daily interactive workshops
-  1 technology focus area
-  Hands-on coding sessions

Support Plans

Professional - Onsite UK  *Most Popular*

£800/consultant/day

- GB Live onsite training in UK
-  Face-to-face interaction
-  2-3 technology focus areas
-  On-site implementation
-  Priority support

Support Plans

Enterprise - Global Implementation

£1,200/consultant/day

-  Global live training sessions
-  Enterprise-wide implementation
-  Multiple technology areas
-  Team training included
-  24/7 support available
-  Post-implementation support

Hotel & travel billed separately

Why Delivery Pilot?

Unique Value Proposition

- ✓ **Confidential Assessments** - Safe space for honest evaluation
- ✓ **Comprehensive Training** - Top 10 AI courses in one program
- ✓ **Practical Implementation** - Real-world application, not just theory
- ✓ **Continuous Learning Cycle** - Quarterly assessments keep you current
- ✓ **Bridge Builders** - Unite developers and non-developers

We don't just train. We transform.

Success Metrics

What You'll Achieve

- 🚀 **Accelerated AI Adoption** across your enterprise
- 🎯 **Closed Skills Gaps** identified and addressed quarterly
- 🤝 **Enhanced Collaboration** between technical and non-technical teams
- 📈 **Measurable Growth** from I-shaped to X-shaped capabilities
- 💡 **Innovation Culture** powered by vibe programming

Transform your organization into an always-learning powerhouse

Get Started Today

Free Assessment Call

Three Simple Steps:

1.  Share your email
2.  Submit your GitHub repository URL
3.  Schedule your free assessment call

Get personalized feedback on your skills gaps and a custom learning roadmap

No obligation. Just insights.

Ready to Transform? 🌟

Stop Letting Skills Gaps Hold You Back
